PROFESSIONAL EXPERIENCE

Cybersecurity & Network Engineer — Lutessa, Paris
Jul 2026 – Present

- **Extreme Networks**: LAN/Wi-Fi architecture and deployment, switching, centralized management through ExtremeCloud IQ.
- **Netskope (SASE/SSE)**: SWG, CASB, ZTNA and cloud DLP implementation; Zero Trust access policies.
- **Evertrust (PKI)**: Certificate lifecycle management, automated renewals and certificate expiry monitoring.
- **Client support**: Technical presales, proofs of concept, integration, documentation and knowledge transfer.

Cybersecurity Consultant — SAYCURIT, Paris 13
Sep 2022 – Jul 2026

- **Palo Alto (NGFW, Panorama, GlobalProtect)**: Firewall management, rule creation, migrations, implementations and monthly audits.
- **CATO Networks (SASE/SD-WAN)**: CATO socket implementation and secure network infrastructure deployment.
- **Rapid7 Technical Lead (InsightVM, AppSec, IDR)**: Integration, client training, vulnerability analysis, remediation tracking and SOC monitoring.
- **SentinelOne**: EDR deployment, alert analysis and incident response.
- **Okta (IAM)**: SSO, MFA, SCIM provisioning, Workflows automation and Zero Trust access controls.
- **Netwrix Privilege Secure & Auditor**: Privilege policy design, delegation models, semi-automated elevations, Active Directory audits and post-incident access log investigations.
- **Digital Guardian (DLP) & Mimecast**: DLP policies, data leak analysis, email quarantine management, user awareness and incident remediation.

Industry sectors: *Banking and financial services, medical and healthcare, international industrial groups, insurance and IT services.*

Freelance Trainer — VD Formations – Paris & PACA Region
Sep 2021 – Present

- **Systems & Networks**: Training for BTS, TAI and first-year students in Linux (Bash, hardening, iptables), Windows Server (Active Directory, GPO) and networking (TCP/IP, VLAN, VPN).
- **Cybersecurity modules**: Penetration testing, SIEM, XDR, IAM and SOC operations.

EDUCATION

ESGI, Paris – Master's Degree in Computer Science, Cybersecurity — 2023 – 2025

ESGI, Paris – Bachelor's Programme, Year 3, Cybersecurity — 2022 – 2023

PERSONAL PROJECTS

Panther ASOC (Automated SOC): Wazuh, Suricata, TheHive and pfSense, orchestrated with Ansible for automated deployment and incident response.

Harmony: Modular HTTP load balancer in Rust with traffic distribution, health checks, rate limiting and logging. Inspired by Stanford's CS110L project.

Proxmox Infrastructure: HomeLab with virtualization, high availability, IoT and site-to-site VPN.

SKILLS, CERTIFICATIONS, LANGUAGES & INTERESTS

Technical Skills: SIEM, EDR/XDR, IAM/PAM, PKI, SSO/MFA (SAML, OIDC, SCIM), DLP, NGFW, IPSec/SSL VPN, SASE/SSE, SWG, CASB, ZTNA, SD-WAN, LAN/Wi-Fi, AD DS, Zero Trust, RBAC, Python, PowerShell, Bash, Ansible, Git, Azure, Proxmox, Docker, SOC and incident response.

Certifications – 2026: Netskope Accredited SASE Associate; Extreme Certified Professional – Solutions Selling; Extreme Certified Associate – Solutions Selling; Evertrust Platform Fundamentals LVL1.

Additional Certifications: MOOC ANSSI; SentinelOne IR Engineer – SIREN; Palo Alto System Engineer (PSE); CATO Certified Associate; Netwrix Privilege Secure – Professional Service Engineer; Cisco CCNA; EBIOS Club MOOC.

Languages: English (C1), Hindi (C1), French (Native), Spanish (A1).

Interests: Reading, golf, weight training and motorsports.
